Schedule Notes

What do the colors mean?	Live Online Instruction Via Zoom or Other Video System	<p>Teachers facilitating mentoring sessions, small group targeted work, and Designated ELD</p> <p>Students not participating in small groups work on homework and assignments without live teacher access</p>	Non-Scheduled Student Time	Students are working on homework and assignments without live teacher access.	Teachers collaborating, lesson planning, professional development, staff meetings and prep time.
--------------------------	--	---	----------------------------	---	--

Who participates in small group times?

- Students who need additional assistance will be invited to small group times by the teacher. These sessions are designed to support learning for students who need support with English language development, students with low grades, and/or students who need clarification regarding assignments. Some Special Education services may be accessed during small group times as well.
- Students may also request to participate in small group time support by contacting their teacher.

What if my child misses an online course? How does he/she make up missed synchronous time?

- There are other opportunities to make up missing time in small group class time, or the student can email teachers directly for important lesson information.

Where do I access my child's class schedule and assigned teachers?

- The school will provide information about specific class schedules and information about contacting teachers. Be sure to stay in contact with your child's school for more information.

How will my child access their lessons, assignments, and class content?

- The school and/or teacher will provide information about how to access lessons, assignments, and class content. Assignments and lessons will use different systems depending on the course content.

How do we get assistance with technology issues?

- There is an email set up for each grade span to assist with login and account issues. For high school, have your student email HSHelp@psusd.us. Tech Depots are also available on select dates across the district to help with hardware issues. For more information, refer to the PSUSD website at <http://www.psusd.us>.
